## EVVA 4KS

Featured product on Australian Defence magazine podcast.

Patent protected until 2035

SCEC Endorsed - SL3 rated products.

Pick resistant with complex design of the 12 slider alignment

Controlled distribution of key blanks with limited dealers.

Carbide slider components plus additional anti-drill pins

Industry leading with environmental conditions - reduced corrosion.

Potentially 133 Billion key combinations.

High grade nickel silver plug and keys - extremely difficult to damage or break

Spring less technology - less wear & reduced corrosion.

V shaped key pushes debris away.

Australian Standard approved. Sc8 AS4145.2

Key can be inserted both ways (Like most automotive keys)

Available to suit any existing locking hardware

4KS will outperform all other products available in challenging environments - dirty, dusty or salty
